The object of this assignment is to familiarize yourself with these vocabulary words from Chapters 3 & 4. The first column (with the letters) is comprised entirely of the terms. The second and third columns (with the numbers) contain the definitions for those terms. You are to place the number of the definition with the corresponding letter of the term in the chart at the bottom. If you are correct, the definition numbers in each column and row should add up to the very same number. This is the “magic” number. Don’t forget to fill it in the blank.
